

FCCRN Update

Fri 10/8/2004 9:31 AM

I just talked with someone who has been talking with the FCC. They said the FCC is in agreement, at this time, that only the School District, and the Library Regional Office should get an FCCRN. Nothing official as of yet, but I am sure the FCC is getting a lot of pressure to solve this little problem.

What does that mean to TEXAS, it means that if you've not started getting your FCCRN for your "Billed Entity" you need to get on that.

BUT...you need to hold off getting FCCRN's for the rest of the entities within your district.

Remember nothing in writing yet, but be patient with this if you've not started the long process. We may very well have to follow the ruling as it stands, but there COULD be some adjustments to the outcome.

Stay tuned!
